Application for Therapeutic Marijuana (TM) Designation

Please complete form electronically before printing it then sign and date the bottom of the form before submitting it. You may fax, scan or mail (see addresses above) the completed form to our office. There is no fee for this credential.

Section 1. Applicant Identification

Name: _____

Credential Type: Pharmacist Intern Technician Credential No.: _____

Applicant's E-mail Address: _____

In the event the applicant does not hold a professional credential issued by the Louisiana Board of Pharmacy but seeks a TM designation for the purpose of serving as the Owner's Managing Officer (OMO) of a marijuana pharmacy, please identify the name of the marijuana pharmacy with which the OMO is affiliated:

Name of Pharmacy: _____

Section 2. Eligibility & Issuance Criteria

Section 2449 of the Board's rules specifies the eligibility for this designation and the criteria for its issuance.

- Eligibility for this designation is limited to:
 - Applicants holding a pharmacist license, intern registration, or technician certificate which was issued at least two years prior to the date of this application, is currently in active status, and has not been disciplined by the Board during the two-year period prior to the date of this application; or
 - Applicants listed as an Owner's Managing Officer (OMO) on the application for a new marijuana pharmacy permit, or on a request to become a replacement OMO for an existing marijuana pharmacy.
- Issuance of this designation requires the Board's favorable review of the applicant's criminal background check (CBC). The CBC packet, containing fingerprint cards and other documents, is available at the Board office to applicants. Since the CBC packet contains information for the fee payable to Louisiana State Police (LSP) as well as the routing of the LSP report to the Board, applicants must first obtain the CBC packet from the Board before visiting a local law enforcement agency. The applicant may visit their local law enforcement agency office to have their fingerprints applied to the fingerprint cards, or in the alternative, may have their fingerprints electronically scanned at the Louisiana State Police (LSP) Headquarters located at 7919 Independence Avenue in Baton Rouge, Louisiana 70806. **Although it is not required, we strongly recommend the applicant have their fingerprints electronically scanned at LSP. It is our experience that prints scanned by LSP are processed in approximately half the time required to process mailed prints.**
 - Previous CBC reports provided to the Board may be used for this purpose, provided that the CBC report shall be dated within the two-year period prior to the date of this application.
 - The law authorizing the Board to require criminal background checks requires the Board to use the LSP, and further, prohibits the Board's use of similar checks performed for or by other organizations.

Section 3. Maintenance

- This is a virtual credential. No paper documents exist. In the event you require written verification of the status of your TM designation, you may print the status message at the Board's website.
- There is no application form or fee to renew this TM designation; it will renew automatically with your primary credential (PST license, PNT registration, or CPT certificate).
- In the event your primary credential should expire, then your TM designation – and the privilege attached thereto – will also expire at the same time.
