.....

In response to multiple requests over an extended period of time from several different types of pharmacies, all requesting permission to store prescription records and other types of pharmacy records, as well as prescription drugs and devices, in areas located separate and apart from the permitted prescription department of the pharmacy, the Board offered the following opinion.

- With respect to prescription records and other types of pharmacy records, they may be stored outside a permitted prescription department, without notice to the Board, provided the pharmacy is able to comply with the Board's rule requiring the production of records no later than 72 hours following a request from the Board.
- With respect to prescription drugs and devices, the storage of such regulated materials shall be limited to the permitted prescription department identified on the permit authorizing the acquisition of such drugs.
