MANDATORY USE COMPLIANCE

- PMP uses the *Mandatory Use Module* to view a prescriber's compliance with state requirements to query a patient's prescription history before prescribing opioid prescriptions.

Mandatory Use Non Compliance Report

- **Reports sent in April 2024, September 2024 and January 2025**
- **Report for the period - October through December 2024 – In Process**

LA R.S. 40, Chapter 4, Part X, §978. Prescriptions

F. (1) A prescriber or his delegate shall access and review the patient's record in the prescription monitoring program established in R.S. 40:1001 et seq. prior to initially prescribing any opioid to a patient and shall access the prescription monitoring program and review the patient's record at least every ninety days if the patient's course of treatment continues for more than ninety days. The requirement established in this Subsection shall not apply in the following instances:

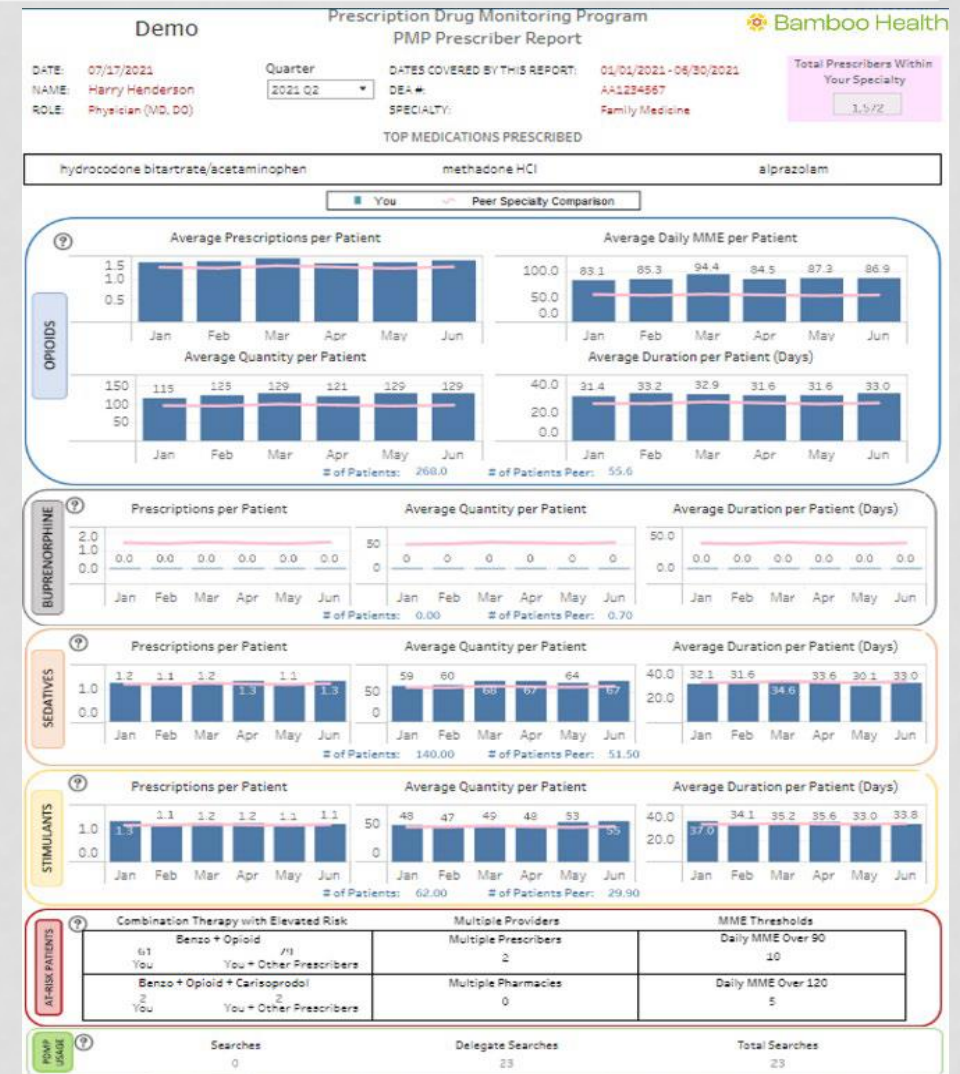

- (a) The drug is prescribed or administered to a hospice patient or to any other patient who has been diagnosed as terminally ill.
- (b) The drug is prescribed or administered for the treatment of cancer-related chronic or intractable pain.
- (c) The drug is ordered or administered to a patient being treated in a hospital.
- (d) The prescription monitoring program is inaccessible or not functioning properly due to an internal or external electronic issue. However, the prescriber or his delegate shall check the prescription monitoring program once electronic accessibility has been restored and note the cause for the delay in the patient's chart.
- (e) No more than a single seven-day supply of the drug is prescribed or administered to a patient.

PRESCRIBER REPORT CARDS

- PMP delivers *Prescriber Report* cards every quarter to all prescribers in reporting period reflecting opioid, sedative, and stimulant medications dispensed during the last six (6) months.
- The report metrics include comparing prescribing behavior against peers within the prescriber's healthcare specialty.

Reports sent in 2024
