FISCAL AND ECONOMIC IMPACT STATEMENT FOR ADMINISTRATIVE RULES

RULE TITLE: Remote Access by a Pharmacy Technician

I. ESTIMATED IMPLEMENTATION COSTS (SAVINGS) TO STATE OR LOCAL GOVERNMENT UNITS (Summary)

Other than the cost of rulemaking, there are no estimated implementation costs or savings for the Louisiana Board of Pharmacy resulting from the promulgation of the proposed Rule change. The cost to the Louisiana Board of Pharmacy is approximately \$500 in FY 26 and \$500 in FY 27 for the notice and Rule publication in the *Louisiana Register*.

The proposed Rule change amends the Louisiana Board of Pharmacy's off-site services Rule (LAC 46:LI.1145) to allow Louisiana-credentialed pharmacy technicians, in addition to Louisiana-licensed pharmacists, to remotely access a permitted pharmacy's dispensing information system from a non-pharmacy location to process prescription drug orders, medical orders, and chart orders. The proposed Rule change also adds safeguards and operating conditions, including required privacy and security controls, real-time two-way audio and video supervision by a pharmacist during remote technician processing, pharmacist review and verification of entered information, prohibitions on duplicating or downloading system data and on receiving or storing orders off-site, and required policies and procedures to support quality assurance.

The cost of the required two-way audio and video communication is indeterminable because it will vary by permit holder and depends on whether a pharmacy chooses to implement remote technician access. Some pharmacies may already have compliant equipment and secure platforms in place, while others may need to purchase equipment or add services.

II. ESTIMATED EFFECT ON REVENUE COLLECTIONS OF STATE OR LOCAL GOVERNMENTAL UNITS (Summary)

The proposed Rule change may provide an economic benefit to directly affected pharmacies and pharmacy technicians by allowing pharmacy technicians to process prescription orders from a location other than the permitted pharmacy, provided all conditions and safeguards in the Rule are met. Any associated costs are expected to be minimal and indeterminate.

III. ESTIMATED COSTS AND/OR ECONOMIC BENEFITS TO DIRECTLY AFFECTED PERSONS OR NONGOVERNMENTAL GROUPS (Summary)

The proposed Rule change may provide an economic benefit to directly affected pharmacies and pharmacy technicians by allowing pharmacy technicians to process prescription orders from a location other than the permitted pharmacy, provided all conditions and safeguards in the Rule are met. Any associated costs are expected to be minimal and indeterminate.

IV. ESTIMATED EFFECT ON COMPETITION AND EMPLOYMENT (Summary)

The proposed Rule change is not anticipated to impact competition. The proposed Rule change may have a positive effect on employment, depending on the number of pharmacy technicians that are not currently working in a pharmacy but would be willing to work from a location other than a pharmacy. That effect is variable and indeterminate.
